## What's New for 2011?

We're adding some new features to the Newsletter.

1. **Club Members Businesses.** A Club Member business section where we'll highlight our Member's businesses. If you need their services, please use them. Yes, it's a free advertisement just because they are members of our Club. Please submit your business information to Mary Ann and Lynn for inclusion in a future issue.
2. **President's Corner.** Each month the President will provide us with his thoughts on some topic which may be of interest to Club Members. It maybe the Club's direction, some new lure, some incite as to the meaning of a specific rule, some law change that's important.... It's really a free form corner for the President to express his opinion and the rest of us can't answer back....
3. **Reminders.** If there is something we need to let you know about, we'll put it here.

## REMINDERS

1. Trophy Bass. 2011 is the third year for the rollover of the Pot. Will you be the one to bring a live 8 lb. bass to weigh-in? Don't forget to pay your Trophy Bass pot amount before you catch the big one.....
2. T-Shirts. Are you interested in a long sleeved or a new short sleeved T-shirt?

Mary Ann needs your input and your orders for shirts (also remember to bring some money since we'll have to pay before we order any shirts – cost up to \$20 depending on number we order at one time). Please e-mail Mary Ann at [maryanntx@att.net](mailto:maryanntx@att.net) before the next meeting to provide your input.... If you don't e-mail her we'll be discussing this at the next meeting.....

## PRESIDENT'S CORNER

For 2011, I will be keeping in mind the reason that I and others have come to this club.

I joined the club to take my fishing to a different level. It wasn't to rise to the level of overly competitive tournaments with the dream of one day being on TV. Instead, I wanted to see new lakes and meet new people that shared my enthusiasm for fishing and the outdoors.

With this in mind, I will be making as few "Presidential" decisions as possible. I will be looking at things from the angle of "Let's just fish".

So as I move forward, I work only if it will improve the fishing experience of all members. Each meeting, I would love it if we focused only on the club business that has to happen so that we can spend the rest of the time with fishing tales.

Time on the lake is better than time at work. It even gets better when it is with friends that are as interested in each other's success as they are with our own. So with this in mind, Milton please delete that text that I replied to you during the last tournament 😊

## CLUB MEMBER BUSINESSES

Our President recently did business with a company he didn't know because he was not aware of what those around him did for a living. It's up to you who you work with, but he thought it would be good to make decisions with better information.

In an effort to get the word out within our club, if you are a Club member that owns your own business, please submit information to Mary Ann and Lynn for inclusion in a future newsletter and to get your link on our web site.

I am a handy man which means I do a little bit of just about everything. I do light electrical meaning hanging fans, changing light fixture, switches and plugs. I install sinks, faucets, disposals, and do a lot of toilet work. Nothing that would get me in trouble with any laws. I do sheetrock repairs, fence work. In general just about anything. I do not do any landscaping or lawn work.

## Fishing Quotes for the Month!

Early to bed...early to rise...fish all day...tell big lies.

**FISH:** an animal that grows the faster between the time it's caught and the time the fisherman describes it to his friends.
